**Address:** Strasho Pindzur 11-2/23,1000 Skopje, Macedonia

## Introduction

A highly skilled Full Stack Developer with over two decades of experience in web development, graphic design, and software engineering. Proven ability to manage complete project lifecycles, from initial design to final deployment. Adept at creating visually appealing and user-friendly designs, as well as developing robust backend systems. Demonstrates strong troubleshooting skills and a commitment to continuous improvement.

## Professional Experience

### Airfind

#### Full Stack Software Developer

Mar 2022 – Present

- Designed and developed a RESTful API for Audit logs.
- Designed and implemented microservices architecture for various projects.
- Engaged in both independent and collaborative projects, delivering high-quality software solutions.
- Participated in the full software development lifecycle, coding, testing, and deployment.
- Ensured performance, quality, and responsiveness of applications through effective troubleshooting and remediation.
- Delivered quality code reviews, contributing to team excellence.
- Technologies used: NodeJS, JavaScript, TypeScript, React, Next JS, Express, Git, Jira, Bitbucket, Swagger, MongoDB, Google BQ, Redis, CSS3, HTML5.

### Rapio

#### Backend Developer - Contractor Worker

June 2023 – Present

- Developing a system for a bar events app, setting up modules for administrators, clients, and users, as well as modules for orders and establishments.

- Established a complete GitHub CI/CD pipeline to streamline deployment processes.
- Implemented unit and integration testing to ensure robust and reliable applications.
- Technologies used: Nx Monorepo, Apollo, GraphQL, NodeJS, JavaScript, TypeScript, React, Express, Git, GitHub, MongoDB.

## Flatfile

### Full Stack Application Developer - Contractor Worker Jan

2023 - Apr 2023

- Implemented unit and integration testing for various projects.
- Technologies used: NodeJS, TypeScript.

## UNIBanka - Universal Investment Bank AD Skopje

### Full Stack Application Developer

Jun 2020 - Feb 2022

- Developed a file management system from scratch, implementing a microservices architecture.
- Created backend solutions using Node.js and MongoDB, adhering to MVC patterns.
- Developed frontend interfaces with JavaScript, CSS, and HTML, ensuring seamless user experiences.
- Manually tested functionalities and successfully deployed solutions on local servers due to security constraints.
- Technologies used: NodeJS, JavaScript, HTML5, CSS3, Photoshop, Illustrator.

## UNIBanka - Universal Investment Bank AD Skopje

### Webmaster and Graphic Designer

Apr 2008 - Jun 2020

- Identified, diagnosed, and resolved website issues, ensuring optimal performance. - Achieved a consistent visual theme across the website, enhancing brand identity.
- Produced engaging presentations and promotional materials, including signage, booklets, posters, cards, and notebooks, targeting diverse audiences.

## Freelancer

2001 - Apr 2008

- Translated client requirements into compelling designs for various media platforms.
- Created designs for different screen types and media platforms, including web design, cover page design, magazines, logos, posters, and booklets.
- Successfully packaged and optimized presentations for ultimate client satisfaction.
- Participated in and won several design contests, showcasing versatility and creativity.

## Skills

## Cources

Successfully completed several Udemy courses in Frontend and Backend Development along with official docs for the desired technology.

- NodeJS - The Complete Guide (MVC, REST APIs, GraphQL, Deno)
- The Complete Node.js Developer Course
- The Node.js Master Class - from Pirple.com
- MongoDB - The Complete Developer's Guide
- React - The Complete Guide (incl. Next.js, Redux)
- Advanced CSS and Sass: Flexbox, Grid, Animations and More!
- JavaScript Algorithms and Data Structures Masterclass
- The Complete JavaScript Course: From Zero to Expert!
- JavaScript: Understanding the Weird Part
- Mastering OpenAI Python APIs: Unleash ChatGPT and GPT4
- The Git & Github Bootcamp
- Understanding TypeScript
